

Dear Friends,

How I wish I could be present physically, as I certainly am in spirit with you on this auspicious occasion.

How richly we have been blessed that all those stalwarts took the decision to found the Anti-Apartheid Movement. Wow! And did it change history or did it!!

It is about the only civil society movement that truly took the world by storm and was to be found in virtually every corner of the globe.

We are deeply indebted to you all. We are free today because of you and what you did for us, boycotting South African goods, holding demonstrations and countless vigils outside where you are now meeting. True irony.

We think of the stalwarts who are no longer with us, Archbishop Trevor Huddleston and Mike Terry especially. Thank you, thank you!

We can depend on you as ACTSA to walk with us as we seek to make a reality for all of our precious freedom.

Enjoy the Party!

Much love and blessings

A handwritten signature in black ink, appearing to read 'Arch', followed by several horizontal strokes that suggest a flourish or the end of a line.

Arch
