On Monday 15 September, leaders from Zanu PF and the MDC signed an historic agreement to share power in this failing southern African state. The eyes of the world will be on Zimbabwe in the coming weeks to analyse and assess the legitimacy and success of this cooperative deal.

ZINASU President and Vice President, Clever Bere and Brilliant Dube, are leading the student and youth movement in Zimbabwe as it challenges the oppression and violence it has endured in recent years. They and their colleagues have suffered numerous arrests and violent attacks; they are the future leaders of Zimbabwe and will provide an engaging insight into the short and long term future of their country.

*Action for Southern Africa, the National Union of Students and Young Labour are proudly hosting this panel discussion around the recent political developments in Zimbabwe and the future challenges.*
